The Dolomites are located in the extreme north-east of Italy, near the Austrian border. This area has a tumultuous history and was an important stake between the Austro-Hungarian Empire and Italy especially during the First World War. Numerous vestiges lay testament to those days...

You will hear German and also Italian spoken as the double culture is deeply rooted. Ladin, a local dialect, with a mixture of Latin and German influences is also spoken in some valleys. Many signs are in all three languages.

The Dolomites owe their name to a geologist, M. Déodat de Dolomieu, intrigued by the strange aspect of the rocks, studied and discovered the composition in 1782.

Known for their famous Via Ferrata, the Dolomites also have fabulous hiking routes. It is not necessary to walk very far or on technical paths to discover the sumptuous landscapes.

From spectacular balconies to verdant valleys, the proposed route crosses different massifs, all equally impressive.

## You will love

- A striking contrast between green and mineral landscapes
- Pleasant trails at the heart of vertical territory
- The confort of your own room and access to your luggage every day
- A legendary welcome in the gites and refuges
