

GRAN PARADISO AND SUMMIT (4061 m), self-guided

To go even higher...

Founded in 1922, the first natural park in Italy and Europe, the Gran Paradiso National Park defines an impressive high mountain range furrowed by deep valleys. Created on the initiative of King Victor Emmanuel II to protect ibex, the park remains a safe haven and protective area for animals including: chamois, ibex, marmot, fox and vultures.

We propose an unusual circuit crossing some of the finest high mountain passes between the Valgrisenche and Valsavaranche, with the imposing summit of the Gran Paradiso at 4061m in view. Seven days of trekking, escaping civilization to discover a universe shared with wildlife of valleys, traditional pastures and high mountain wilderness.

The trip

LEVEL ****

Elevation: +/-1100 to 1300m approximately per day.

Walking time: 6 to 8 hours per day.

Type of trek: Stony trails that take daily passes located between 2800m and 3000m altitude. Some passes are steep as well as several aerial or technical paths, mainly at the start of the season with the crossing of residual snowfields. The trails are relatively well marked except when approaching certain passes.

The route in general is well indicated, and the Roadbook provided sufficiently complete to allow you to hike in complete safety. However, it remains essential to know how to read the 1:25,000 map and to be sufficiently autonomous in the mountains to be able to approach the route confidently, whatever the weather.

Climbing to the Gran Paradiso summit: it involves walking with crampons without any major technical difficulty, however it is a long glacial walk. The last 100m to the summit are steep and more technical and may induce vertigo in those sensitive to heights. It is always possible not to carry out this stage.

You need a good endurance level and a mental capacity for long-term efforts. An experience in hiking is required. Please practice a cardio sport such as hiking, running, cycling, from 6 to 8 hours a week. Your physical preparation will enable you to enjoy your trek to the maximum.

Please find the description of the levels by clicking here: [levels of difficulty](#)

One month prior to departure, we will send you your travel documents. We offer two roadbook versions:

The "paper" version we send by post:

- 2 IGN TOP 25 maps with route layout.
- 1 road book with all the necessary information for the hike.
- 1 card holder.
- The list of accommodations.

The "digital" version is an application to download on your smartphone, accessible to each of the participants of the file. The information for downloading and using it is sent by e-mail.

SIGNPOSTS AND WAYMARKS ALONG THE TREK

The route is marked with a yellow arrow and regular ground markings (in both directions).

The trails are numbered.

It is preferable to know how to read a topographical map at 1/25000.

Two options:
